

Pneumatic Drip Leg

Protect Your Equipment from Water Damage

- **Simple, effective water removal**
Reduced air velocity from line allows water droplets to fall out of the air stream and collect for discharge
- **Durable welded carbon steel construction**
- **Easy to incorporate as part of a machine drop from an overhead distribution line**
- **NPT or G thread models available**

Specifications

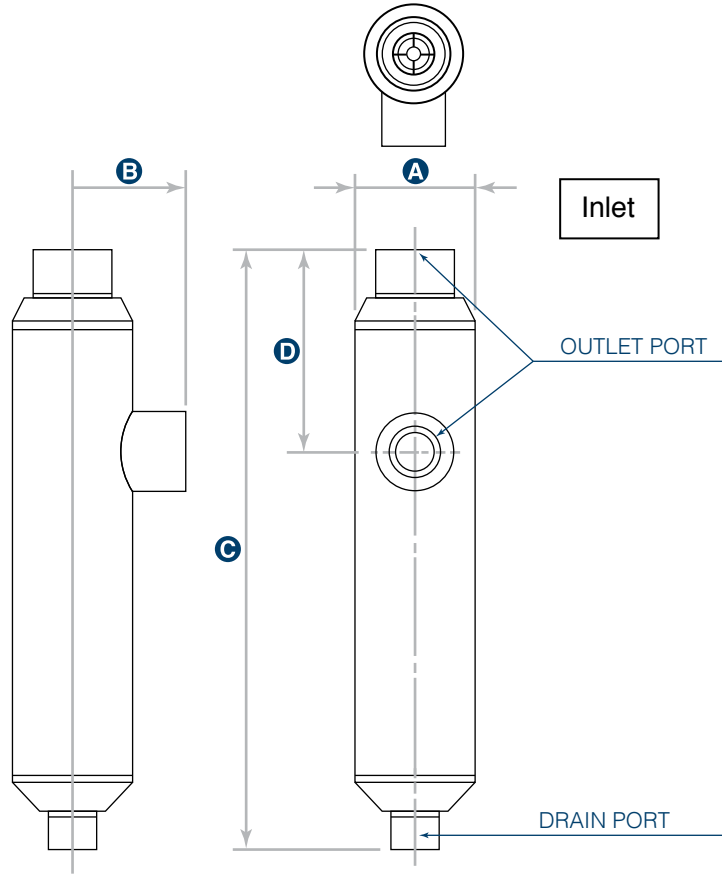

Max. Working Pressure	150 psig (1.0 MPa)
Proof Pressure	220 psig (1.5 MPa)
Material	Carbon Steel
