Stainless Steel Cylinders

Series CG5, CY3, & More

SMC stainless steel cylinders are ideal for caustic wash down applications at any stage of the food processing process.

- Corrosion resistance guarantees a long service life
- Smooth surfaces prevent buildup and can be easily cleaned
- Special scraper prevents water from entering cylinder
- Laser etch labeling option to withstand caustic wash down applications
- Options which can meet FDA regulations (food zone safe)
- Hygienic switch rail allows auto switch mounting without forfeiting cleanliness
- NFPA mounting allows interchangeability with NFPA cylinders

Maximize the life of cylinders & valves to minimize downtime for continuous operation
