

# Speed Controller with One-touch Fitting Stainless Steel Series Elbow Type/Universal Type Series AS-FG

## Stainless specifications for use in corrosive environments. Stainless steel 303 used for metal parts.

Suitable for use on CRT lines where copper ions can cause damage, for washing food processing equipment where there is exposure to water and salt water, etc., and in clean rooms where dust from discoloration and rusting of copper materials is unacceptable.

### Light colors to match equipment

White resin parts are used for bodies and release buttons.

### Threads with and without seal are available as standard.

### Applicable tubing: Inch sizes standardized

Inch sizes are now available for all models.
