Soft Polyurethane Tubing TUS Series

— 20 m roll □ — 100 m reel

Suitable for piping in confined spaces Extremely flexible

Soft polyurethane tubing

TUS related accessories Inner sleeve *TJ series*

Reinforces soft polyuretharane tubing. Insert an inner sleeve into soft polyurethane tubing when used with a One-touch fitting.

Model

Model	Applicable tubing model	Length	
TJ-0425	TUS0425	18	
TJ-0604	TUS0604	19	
TJ-0805	TUS0805	20.5	
TJ-1065	TUS1065	23	
TJ-1208	TUS1208	24	

Specifications

Material	C2700T (Electroless nickel plated)				
Wall thickness	0.2 mm				

A Precautions

Be sure to read this before handling the products. Refer to back page 50 for Safety Instructions and pages 13 to 17 for Fittings and Tubing Precautions.

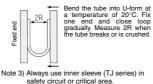

∆Caution

- Use a nylon or polyurethane tubing for general industrial water, otherwise the tube may result in being fallen out or bursted when the max. operating pressure is lower and the surge pressure is occurred.
- Abnormal temperature rise caused by adiabatic compression may result in the tube bursting.
 The value of the minimum bending radius
- The value of the minimum bending radius is measured at the temperature of 20°C as shown in the figure on the right.
- Use inner sleeve, taking the removing force into consideration when used with One-touch fittings.
